

Conference Launching the New Bi-national, Bilingual Curriculum

Tradition, Culture & Society

'Chutam' – 'Society, Culture and Tradition', is a unique curriculum which was developed at the Wahat al Salam Neve Shalom BiNational & Bilingual School. The curriculum is a yearly, multi-disciplinary program combining the following disciplines: religion and tradition, heritage and geography, history, tradition and culture. The program is taught in Hebrew and Arabic at the same time.

After five years of developing and implementing this curriculum at school, and our commitment to bilingual education, we are delighted to launch the curriculum and distribute it to other educational institutions, who can learn and benefit from it's content.
